

MAYDAY for MEN

Male Victims of Domestic Abuse make up a high percentage of the silent epidemic of male suicides. Women may not have the same physical strength as men, but psychological abuse does not involve physical strength. The lack of financial investment to support male victims coupled with outdated narratives stating only women are victims of domestic abuse is contributing to the current **Mental Health Crisis for Men**.

As employers, you have a duty of care to protect the health, safety, and well-being of all your employees:

- **Would you know how to recognise the signs of a colleague or employee experiencing Coercive Control, Parental Alienation, or any other type of domestic abuse?**
- **What protocols are in place to recognise and respond to males affected by domestic abuse in your organisation.**

Employers who are interested in finding out more can contact info@maydaydvs.co.uk
